

Everyday God

Enriching Worship

Introduction

Each of the accompanying sheets contains resources and ideas for enriching worship in several sections.

Firstly there is a picture of a display, which might be used to illustrate some aspect of the theme of the readings. This picture is not intended to be prescriptive but to prompt individual ideas in each parish. Simple images are used which should be able to be produced in every parish.

Actions in the Liturgy

Each week a suggestion is made about a liturgical action.

Symbols for people to carry home

Symbols to take home are suggested for each week. These resources are either available locally or may be ordered from the diocesan resources centre. An order form is included in this pack.

Resources and action for Young People

Each week we are reminded of the fact that there are resources available for use with children under 5, 5 - 11's and young people's groups.

See the diocesan website at:

www.wakefield.anglican.org

on the Children and Youth Team Page

Liturgical Material

Is included each week. This is taken either from Common Worship, New Patterns for Worship or the new Times and Seasons material soon to be published. Please note that the Times and Seasons material is still in draft form and small changes may be made before official publication.

For your prayer at Home

This section suggests ideas for building up a prayer space, or prayer corner where the symbols distributed on Sundays may be gathered together and used as an aid to prayer. Such a space might be, in each home, a focus of daily prayer and reflection. The ideas in this section could be copied onto a parish newsletter

Other Resources / Material

Roots on the Web
